Summary

Full Stack Developer Completed B.C.A. with practical experience building LMS, E-commerce, and Real Estate applications. Trained at Learn to Earn Labs and currently a Frontend Developer Intern at 9 Pages Tech Solution Pvt. Ltd. Skilled in html, css , Javascript, json, git and github, React, Redux, Node.js, Express, MongoDB, MySQL, JWT, Session and Cookies , basic of graphql , basic of websockets , Typescript and modern web development practices. Focused on creating efficient, user-friendly, and scalable solutions.

SKILLS

Technical Skills	Technologies
FrontEnd	HTML,CSS,JavaScript,ECMA script,Json, React,Redux,Redux Toolkit,Typescript
BackEnd	Node.js,Express.js,MySQL,MongoDB,JWT,Session& Cookies,API's, Basic GraphQL,GeoLocation & GeoFencing
DataBase	MySQL, MongoDb
Office Tools	Ms Word, Ms Powerpoint, Ms Excel
Online Meeting Tools	Zoom, Google Meet, Microsoft
Other Tools	VS Code, Postman, Google Chrome, Git & Github
AI Tools	Github Copilot,ChatGPT,Qween,Claude,Grok

EDUCATION

- **High School(2021-2022)**
  Shanti Niketan Public School with 74.6%
- **Inter (2023-2024)**
  Mahi International School with 64.6%
- **Dr. Bhim Rao Ambedkar University (2023-2026)**
  Completed Bachelor's in Computer Application (BCA)
- **MERN Stack Developer Training** — Learn2Earn Lab September 2024 – September 2025 Completed 1 Year intensive training program covering MongoDB, Express.js, React.js, and Node.js. Focused on building full-stack web applications, API development, and state management with Redux.

Projects

- **(Real Estate)**

Description: Built a dynamic real estate platform where users can browse, search, and filter property listings. Integrated features like property posting, image uploads, inquiry system, and an admin panel to manage listings. Designed a responsive UI for seamless user experience.
Technologies Used: ReactJS, TailwindCSS, Node.js, Express.js, MongoDB, JWT.
Project Link: https://github.com/someshcoder/Real-Estate-Application.git

- **LMS (Learning Management System)**

Description: Developed a full-stack LMS where students can register, enroll in courses, track progress, and interact with instructors. Built secure authentication, role-based access (Admin/Instructor/Student), and responsive dashboards for a smooth learning experience.
Technologies Used: ReactJS, Redux, TailwindCSS, Node.js, Express.js, MongoDB, JWT.
Project Link: https://github.com/someshcoder/Learning-Management-System.git

- ## E-Commerce Web Application (MERN Stack)

Description: Developed a responsive e-commerce web application using the MERN stack with features like product browsing, cart management, secure authentication, and order processing. Implemented JWT-based login/signup, real-time CRUD operations, and a seamless cart & checkout system. Built a modern UI using React.js and Tailwind CSS, integrated RESTful APIs with Axios, managed data using MongoDB with Mongoose, and developed a scalable backend with Node.js and Express.js.
Project Link: https://github.com/someshcoder/E-commerce.git

- ## Student Union Management Web Application (MERN Stack)

Description : Designed and developed a Student Union Management Web App to streamline communication, event management, announcements, and grievance handling. Implemented real-time updates using WebSocket.io, secure authentication with JWT and sessions, and role-based dashboards for students, union members, and admins. Built a responsive UI with React.js and Tailwind CSS, integrated RESTful APIs using Axios, managed data with MongoDB and Mongoose, and developed a scalable backend using Node.js and Express.js.
